ISTITUTO SECOLI, THE SCHOOL OF MAKING FASHION.

Italian excellence in education for the fashion system, Istituto Secoli has been for more than eighty years the point of reference for the study of the design and creation process of a fashion collection, a School with unique abilities to dialogue with the fashion system.

WE MAKE FASHION.

Everybody has ideas.

Some have great ideas.

But very few are capable of transforming them into something, tangible and effective.

True creativity must always measure itself with the reality of technology and the market, otherwise the Idea remains on paper.

This is the “**Secoli Method**”.
